

I-95 Express Lanes Fredericksburg Extension (Fred Ex)

Public Information Meeting

March 2017

Welcome

Meeting Goals

- Provide information about the study area
- Share preliminary concepts under consideration
- Seek public input

Project Purpose and Need

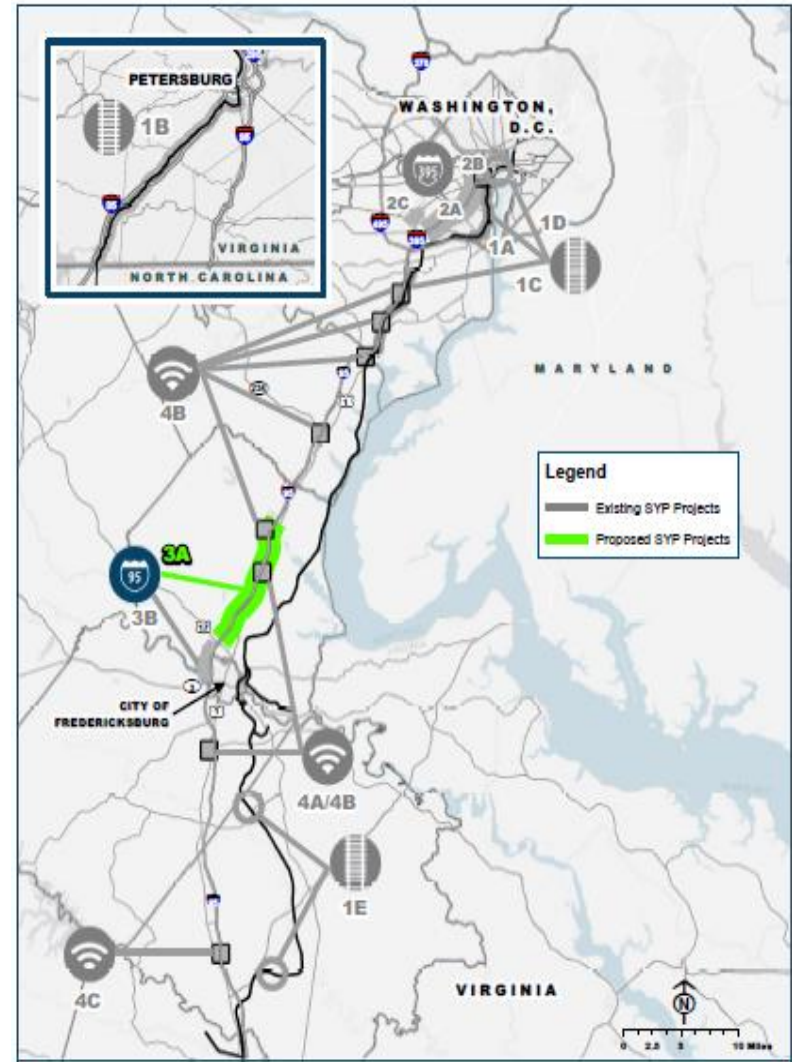

Develop a corridor wide transportation solution that

- **Reduces congestion**
- **Provides additional travel choices**
- **Improves travel predictability**
- **Improves roadway safety**

Background

Atlantic Gateway: Virginia received a \$165 million federal grant from USDOT for highway, transit and rail projects along the I-95 corridor

I-95 Express Lanes Fredericksburg Extension was included as Component 3A

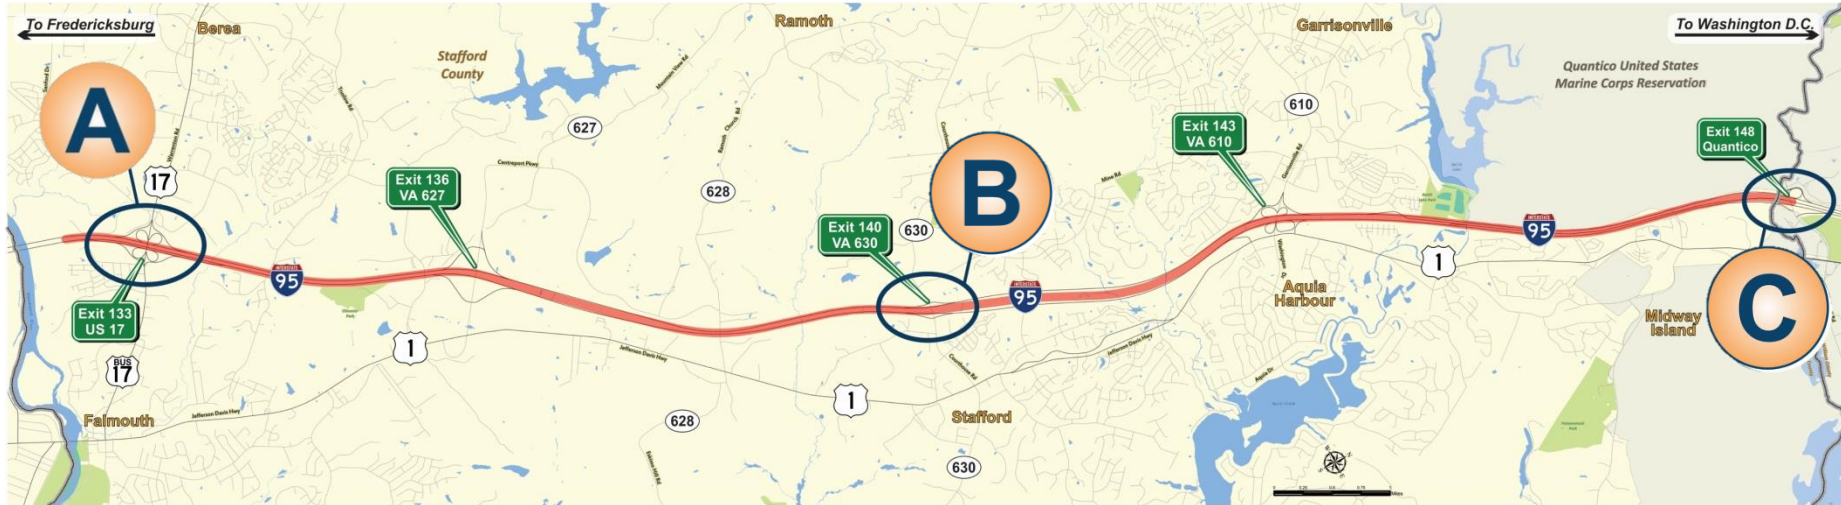

Project Scope for Component 3A

- **Extend I-95 Express Lanes to Route 17 (Exit 133) in Stafford County**
- **Provide direct connection with the Southbound and Northbound Rappahannock River Crossing Projects**
- **Provide Access Points to/from Express Lanes**

Study Area

- **Approximately 10 miles of Express Lanes Extension from Garrisonville Road (Exit 143) to Route 17 (Exit 133)**
- **Potential Express Lane Access Points near Route 17 (A), Route 630 (B) and Quantico (C)**

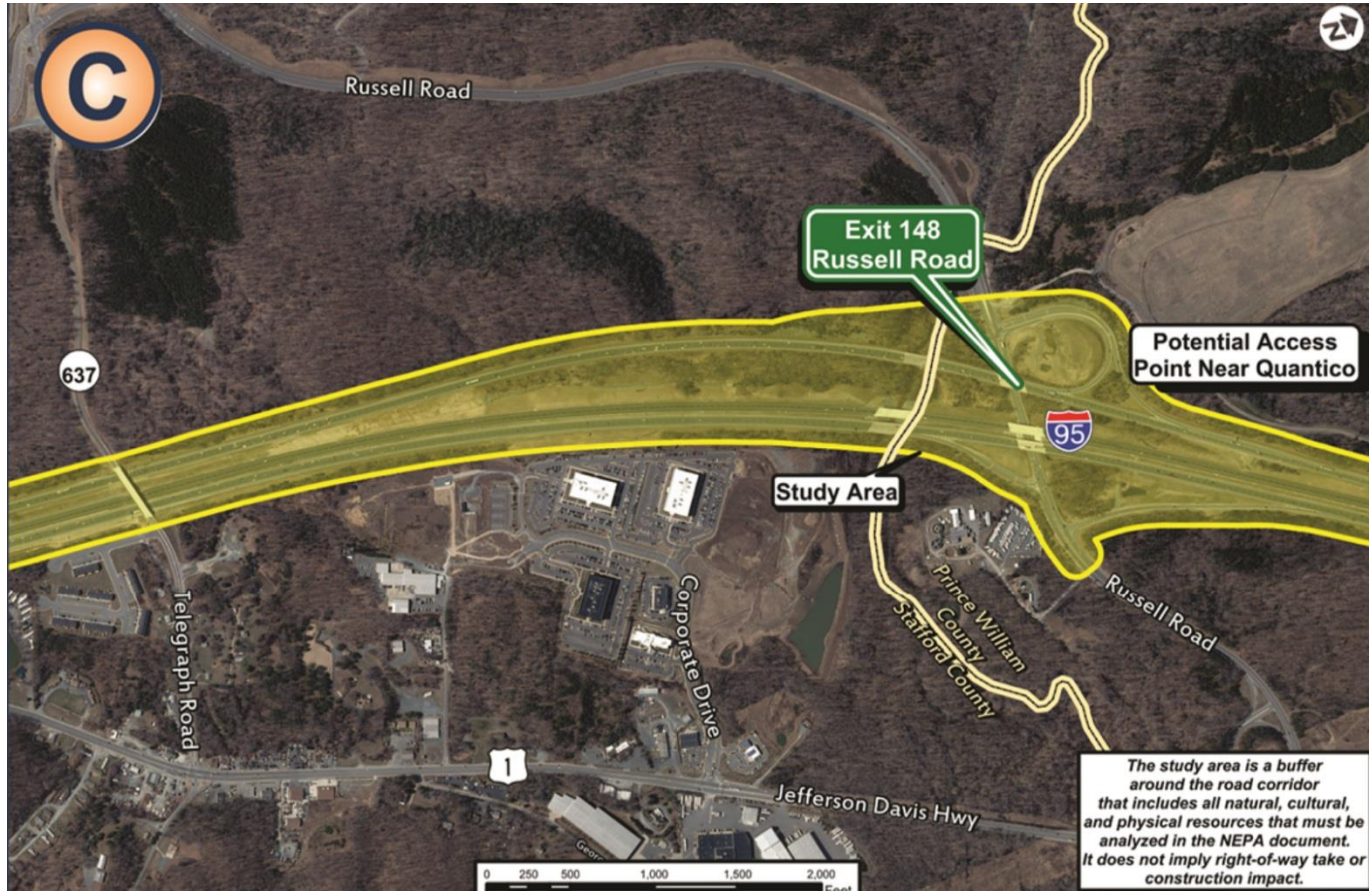

I-95 at Exit 133 (Route 17)

I-95 at Exit 140 (Courthouse Road)

I-95 at Exit 148 (Russell Road)

Tasks Underway

- **Data collection for Environmental Assessment (EA)**
- **Traffic data collection for Interchange Justification Report (IJR)**
- **Technical studies**
- **Preliminary Air and Noise Analysis**
- **Identify Project Elements**

Project Schedule

Public Information Meeting	March 2017
Environmental Documentation for Public Review	Fall 2017
Public Hearings	Fall 2017
Final NEPA Decision	Winter 2017
Design Build Contract Award	Fall 2018
Begin Construction	Spring 2019
Project Completion	2022
